The LEVA Electric Bike Technician Training Course was developed for LEVA by Dr. Don J. Gerhardt with the help of E-Bike manufacturers, dealers and LEVA members. Over 700 technicians have received the training. Training has been provided at Interbike, community colleges, E-Bike manufacturers, Park Tool and the United Bicycle Institute.

The 2 day training course consists of 4 modules:

1) Level 1 – Introduction to electric bikes and the industry  
2) Level 2 – Intermediate level technology, service and diagnostics  
3) Level 3 – Advanced level training including computerized battery testing and service  
4) Level 4 – Training on latest technology and Organic Transit ELF

The $550.00 cost for the 2 day course includes a copy of the Electric Bike Maintenance Manual ISBN 9787-0-9905228-0-5 on a USB drive. Wire and connector kits are also provided. The USB drive manual includes videos, over 80 appendices with service information and web links to over 300 manufacturers of E-Bikes and E-Scooters. The course begins at 9 AM and ends at 5 PM. Contact Don Gerhardt at djgerhardt@aol.com for additional information.
